WHEN YOU WRITE A STORY

Tips for Developing the Characters:

Good writers plan and develop their story's characters, setting, and plot:

- ✓ Who or what is your main character?
- ✓ Does your character have a name?
- ✓ What does your character look and sound like?
- ✓ What does your character like \ and dislike?
- ✓ How would you describe his or her personality?
- ✓ What makes this character special?
- ✓ Now repeat the process for the other characters in the story.
